

HVAC Technician

Why waste another day working a job you hate? Grab success by the horns as an HVAC technician on the Robin Aire Service Company team! It's more than a job; it's a career, and one with boundless possibilities for development and earning potential. Whether you're a seasoned pro with years of experience in the field, or an entry level technician looking to wet your feet in the big leagues, this is the opportunity to align yourself with an industry leader (and make the big bucks while you do!).

- If you're a bomb-diggity tech and ready to lead a team, you could see yearly earnings up to \$120,000.
- If you're a solid tech and can hold your own in the field, you can count on yearly earnings up to \$70,000.
- Lastly, if you have a mechanical aptitude and hustle to match, but no formal HVAC experience, this could still be the path for you. We happily welcome entry level technicians with no formal experience, and offer the chance to *earn* while you *learn* during our 10 week paid training program. Entry level technicians can see a yearly earning potential up to \$40,000.
